

EDUCATION

The best investment we can make in our future is in our children's education

Legislative Accomplishments

Congressman Moore believes that the federal government should remain a 'junior partner' in education decisions. He is, however, committed to improving access to a quality education for all children.

- Supported increased federal funding for **Head Start** programs.
- Worked to make **higher education** more affordable, increasing Pell Grants and lowering interest rates on federal student loans.
- Increased **tax credits for educators** to help offset their "out-of-pocket" expenses.

Current Agenda

Congressman Moore is focused on the following legislative items:

- Advocating for **full funding** of No Child Left Behind (NCLB) and the Individuals with Disabilities Education Act (IDEA).
- Increasing the number of **teachers** in our schools and promoting teacher retention.
- Highlighting the importance of a **comprehensive educational experience**, including quality science and math instruction, access to arts instruction and community involvement in our schools.

President Obama

Congressman Moore looks forward to working with the Obama Administration to address the following education priorities:

- **Amending No Child Left Behind** so that it places reasonable requirements on our students, teachers and schools and ensuring that the federal government provides the resources it promised to help them meet these new, higher standards.
- Making **higher education** an affordable investment for every American.
